## **AYGF EMPOWERS UNDERGRADUATES AT THE NILE UNIVERSITY CAREER FAIR 2023 WITH OPPORTUNITIES TO CONTRIBUTE TO OUR MISSION.**

We are delighted to share the exciting news that the AYGF was cordially invited to participate in the highly anticipated 4th Annual Career Fair at Nile University, which took place on June 16, 2023. This significant event aimed to empower the graduating class by providing them with valuable career prospects and job opportunities, ultimately contributing to the reduction of unemployment rates in our country's economy.

The Career Fair served as an excellent platform for AYGF to fulfil its mandate. We seized the opportunity to create awareness, educate, and empower interested and curious candidates in our thematic areas, emphasising how they could make a meaningful impact by joining our organisation and lending their skills to advance our mission.

Moreover, the fair provided a valuable networking opportunity for us. With over 80 employers and organisations present, we established connections that have the potential to foster future partnerships and expand our reach, not only within Nigeria but also beyond its borders.

Thanks to the user-friendly online registration system, we received a substantial number of sign-ups from prospective graduates eager to contribute to our organisation and bring about positive change in our society. Even without formal sign-ups, we successfully informed and educated students, staff, and other organisations, establishing fruitful contacts and providing them with further information about our mission and objectives.

We were humbled to receive commendations from the Career Fair organisers, who recognised our dedicated efforts in shaping the future of young individuals. This event marked a significant step forward in solidifying the Memorandum of Understanding (MOU) we signed with Nile University, strengthening our already cordial partnership, and promising progress for the future.

Our participation in this event perfectly aligns with our dedication to the educational sector. At AYGf, we firmly believe in fostering justice, equality, and inclusivity within our society. By actively engaging in dialogues like the Career Fair, we aim to amplify the voices of marginalised communities, advocate for transformative policies, and ultimately contribute to building a more just Nigeria.
