THE “S.E.N.S.E” PODCAST: PROPELLING OUR ORGANIZATION’S THEMATIC AREAS TO NEW HEIGHTS

We are thrilled to announce the launch of our latest initiative, a podcast series titled "S.E.N.S.E." As a non-profit organisation dedicated to promoting Sustainability, Education, Nutrition, Social Justice, and Empowerment, amongst other areas, this podcast serves as a powerful medium to extend our outreach efforts and disseminate our objectives to a wider audience.

Hosted by Caroline Godwin and Ikenna Madu, "S.E.N.S.E." brings together industry experts, thought leaders, and in-house guests to explore the various facets of our thematic areas. Through engaging conversations, we delve deep into the core issues surrounding sustainability, education, nutrition, social welfare, and empowerment, offering invaluable insights and practical solutions.

Since its inception earlier this month, we have already released six compelling episodes on our official YouTube page. Each episode delves into a different aspect of our thematic areas, presenting innovative ideas, success stories, and expert opinions. Our aim is to expand this podcast series and transform it into an internationally recognised show that captivates audiences worldwide. With each new episode, we strengthen our ability to effectively communicate our messages and make a greater impact on addressing the pressing issues in our thematic areas.

We encourage you to stay tuned for further updates on this intriguing development. As we continue to expand on this profound medium of information dissemination, we are excited to embark on this journey together with you, our valued supporters.
